LINO TINTO DELAVÉ SOLIDO
Linen delavé fixed

Tinto con coloranti reattivi o indanthrene.
La fibra presenta la particolarità di essere tinta solo in superficie; un semplice trattamento meccanico eseguito sul tessuto o sul capo confezionato conferisce un aspetto "invecchiato".
Dyed whit reactive dyestuff or indanthrene.
The fibre shows the characteristic to be only dyed on the surface; a simple mechanical treatment made on the cloth or on the ready made article gives a "old looking" look.
