I valori riportati si riferiscono al cambiamento di tono.

The a.m. values are referred to the change of the colour's tone.

Gli stingimenti sulle fibre accompagnatorie possono avere valori molto bassi (anche 1/2); per tale motivo sono da prevedersi trattamenti di manutenzione esclusivamente a secco.

Si evidenzia che è possibile incrementare tali valori con un trattamento con fissatore in fase di finissaggio del tessuto.

The fading on the accompanying fibres can also have very low notes (also 1/2); therefore it must be considered only dry cleaning maintenance treatment.

Please note that it is possible to increase these value whit a treatment whit a fixing agent during the finishing of the material.

Per qualsiasi altra esigenza di tipo tecnico si consiglia di informarsi preventivamente.

For any other technical requirement please ask information in advance.

La tabella solidità è relativa ai toni tinti con coloranti acidi e acidi FIX.
 Per i coloranti Reattivi si rimanda alla relativa cartella.
